Stony Brook University's Physics & Astronomy program ranks in the top 100 universities In the world

According to QS, one of the leading ranking organizations for international rankings, the Stony Brook University's Physics and Astronomy program has ranked #89 in the top 100 universities in the world.

Stony Brook, NY: On March 3, 2021, one of the leading ranking organizations for international rankings, QS, announced the Stony Brook Universities Physics and Astronomy program has ranked in the top 100 universities in the world. This milestone is a major move for Stony Brook University on its mission to advance its community and the world through knowledge and discovery.

“Our Department of Physics and Astronomy is world-class, and this ranking reinforces Stony Brook University's position as a premier American public research institution,” said Maurie McInnis, president of Stony Brook University. “We take pride in the cutting-edge research, scholarship, creativity, and innovation that have made Stony Brook what it is today.”

This news comes in the wake of many recent initiatives and accomplishments of Stony Brook University including:

- world-leading advances in quantum internet development by Associate Professor Eden Figueroa
- The award of the New Horizons Prize to Rouven Essig, associate professor in the CN Yang Institute for Theoretical Physics and Department of Physics and Astronomy, by the Breakthrough Prize Foundation

Physics building at Stony Brook University
